Preliminary Report on Bus trip at Aurangabad (PG)

Date and Time: 09.06.2014 11:22 Hrs

As intimated by CPCC (Nagpur) Bus bar of 400 kV Bus-II tripped while disconnecting the L/R of 400 kV Wardha-II which is connected as B/R. The code was given with a view to improve Voltages (Voltage was 395kV prior to issuing of code).

The elements tripped are

400 kV Aurangabad-Aurangabad-I (tripped at MSETCL end only on D/T)

765/400 ICT-II at Aurangabad (PG)

The flow on Aurangabad-Aurangabad-II rose to 880MW; as the line-I was holding from Powergrid end the line-I restored at 11:39hrs.

Other details awaited from WR-I
